Automation-as-a-Service
Powered by Artificial Intelligence (AI)
and Robotic Process Automation (RPA)

33%

Of tasks in a healthcare provider setting have the **potential to be automated**

*According to research by McKinsey & Company

Opportunities for **Automation**

Across the patient journey, automation has the potential to eliminate time spent on repetitive tasks that teams invest hours performing manually.

Intake/Patient creation

Eligibility

Authorization

Physician order

Clinical Audits

Notification management

OASIS iQIES

NOE

Claims Processing

Denial Management
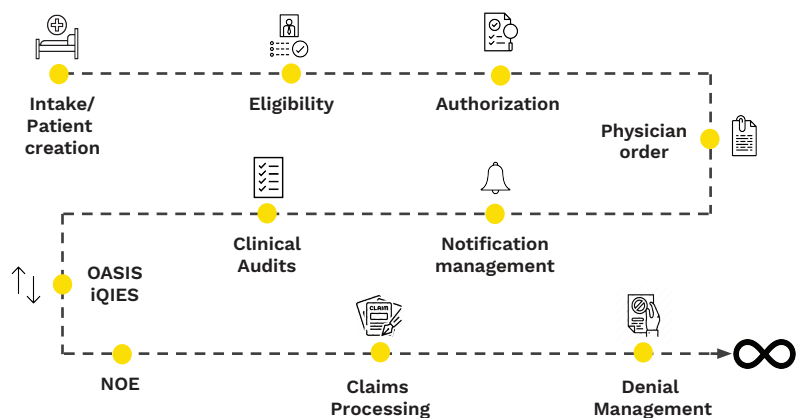

Unlock the power of an always-on Digital Workforce

Benefits of automation in **post-acute care**

- Low operating costs
- Consistency
- Accuracy
- Timeliness
- Improved Employee Satisfaction

Automation shouldn't cost millions of dollars and take years

Element5 is the easy button to unlock the power of automation

Why choose Element5

Post-acute care focused
The first workflow automation solution, built for post-acute care by teams with decades of industry experience

Automation-as-a-Service
A fully managed solution. We design, build, implement, support and maintain so you can experience true ROI

Workflow marketplace
A library of pre-built workflows allow you to choose the ones that are most relevant to you and get started easily

Rapid deployment
With over 1000 reusable functions specific to post-acute care, we build and deploy custom workflows quickly

Operational analytics
Gain a unified view into reports from systems across service lines. Identify bottlenecks and maximize efficiency

The Element5 Advantage

- SaaS offering. Subscription based pricing per workflow.
- Low up-front investment and low total cost of ownership.
- No Bot licensing or infrastructure costs. Pay only when live.
- Rapid time to value. Tangible ROI at deployment.
- Highly Scalable. Add workflows as per your requirement.
- HIPAA and SOC2 Compliant.

Automating your **first workflow**

1. Choose a workflow → 2. Establish implementation plan with Element5 → 3. Go live **It really is that simple.**
